myManifest

For the continuous betterment of education by growing academia and industry with proven data and practices forthwith scientific and engineering works such as formulating the true calculated Speed of Light ($c = 0$) and set result to the International Union of Applied and Pure Chemistry(IUPAC).

Industry

github.com/conceptslearningmachine -
Systems
2013-Present day / the Universe

What started as the standard descriptor as a "computer" software repository to the total embodiment of ethics, (STEM) and systems development and engineering with proven information and procurement of data in file formats for secure storage and redistribution.

conceptslearningmachine LLC. -
Classic & Quantum Mechanics Engineer
August 2019-Present day / Denver, CO

Science and engineering with ethical algorithmic processes & procedures.

- The utility invention; Natural Human WaveLength & Impedance Meter/Visual Recognition Medical Instrument I formulated, designed, engineered and industriallyl manufactured, submitted a white paper to U.S Army Research Laboratory(ARL).

ALTUSNET LLC. -
Computer Scientist & Engineer
November 2017-November 2018 / Lincoln Park, NJ

Systems architecture extenuating by software and algorithmic processes.

- Developed, engineered and built in AD 2018 AD; Toke Core, the working hyperprotovisor systems software running the Bitcoin p2p network, confirming and communicating to U.S. Federal Trade Commission at antitrust@ftc.gov the illegitimacy of cryptocurrency financial market and the inefficiency of
